

Moderna And Mitsubishi Tanabe Pharma Corporation Enter Joint Agreement to Promote Moderna's mRNA Respiratory Vaccine Portfolio in Japan, Including COVID-19 Vaccines

CAMBRIDGE, MA and OSAKA, JAPAN / July 8, 2024-- Moderna, Inc. (Nasdaq: MRNA) and Mitsubishi Tanabe Pharma Corporation today announced that the companies have entered into a joint agreement regarding the co-promotion of Moderna's mRNA respiratory vaccine portfolio in Japan, including Moderna's COVID-19 vaccine, Spikevax®.

Under the agreement, Moderna will handle the manufacturing, sales, medical education and distribution of its mRNA respiratory vaccines. Both companies will engage in activities to enable broad access to Moderna's mRNA respiratory portfolio to have the maximum impact on public health in Japan. The agreement has an initial term until March 31, 2029 and no further details on the financial terms of the deal are being disclosed.

"We are pleased to partner with Mitsubishi Tanabe Pharma to enable the commercialization of our COVID-19 vaccine and future mRNA respiratory vaccine portfolio to the people of Japan," said Kazumasa Nagayama, President and Representative Director of Moderna Japan. "Mitsubishi Tanabe Pharma has a significant heritage in Japan and has long contributed to public health through numerous vaccines and possesses extensive experience and deep knowledge in this area. We look forward to working together to provide our COVID-19 vaccine in Japan, given the virus continues to pose a significant threat to public health."

Akihiro Tsujimura, Representative Director of Mitsubishi Tanabe Pharma, said, "Moderna has delivered COVID-19 vaccines to many people worldwide since the COVID-19 pandemic began. We are delighted to collaborate with Moderna and engage in commercial activities for the COVID-19 vaccine and other mRNA respiratory vaccines in Japan. We will continue to contribute to public health in Japan through our vaccine business."

About Moderna

Moderna is a leader in the creation of the field of mRNA medicine. Through the advancement of mRNA technology, Moderna is reimagining how medicines are made and transforming how we treat and prevent disease for everyone. By working at the intersection of science, technology and health for more than a decade, the company has developed medicines at unprecedented speed and efficiency, including one of the earliest and most effective COVID-19 vaccines.

Moderna's mRNA platform has enabled the development of therapeutics and vaccines for infectious diseases, immuno-oncology, rare diseases and autoimmune diseases. With a unique culture and a global team driven by the Moderna values and mindsets to responsibly change the future of human health, Moderna strives to deliver the greatest possible impact to people through mRNA medicines.
